

Shahul Hammeed

Full-Stack JavaScript Developer | 6+ Years Experience

 shahulhammeed01@gmail.com ·  linkedin.com/in/shahul01 ·  github.com/shahul01 ·  [Upwork Reviews](#)

Professional Summary

Full-stack JavaScript developer with 6+ years of experience building production-grade web applications across e-commerce, AI, SaaS, and health-tech industries. Proficient in TypeScript, React, SvelteKit, Next.js, and Node.js, with a strong track record of improving UI performance, shipping reliable features, and debugging complex systems quickly. Experienced with Supabase, PostgreSQL, Stripe, and real-time technologies. Consistently delivers clean, maintainable code with intuitive user experiences.

Core Skills

Frontend: React (Hooks, Redux Toolkit, React Query), Next.js (SSR, Server Actions), SvelteKit (SSR, Hooks, JWT Auth), Svelte 5 (Runes, Lifecycle, Stores, Context, Animations), TypeScript, JavaScript (ES6+, ES2020, async/await), CSS (Flexbox, Grid, Animations, Responsiveness), TailwindCSS, shadcn/UI, Material UI

Backend & APIs: Node.js, Express.js, tRPC, REST APIs, JWT & Cookie Authentication, Socket.IO

Databases & Cloud: PostgreSQL, Supabase (CRUD, Auth, RLS, Schema Design), MongoDB, AWS (EC2, LightSail, PM2, Linux), Vercel

Payments & Integrations: Stripe (webhooks, dynamic pricing, payment methods), Mistral AI (OCR), CMS (Strapi, PocketBase)

Testing & Tooling: Vitest, Jest, React Testing Library, Cypress (E2E), Figma, Zod, Webpack

Work Experience

Full-Stack Developer – Stamp E-Commerce App (*Contract*)

Remote | 2023–2024

- Built a full-stack e-commerce platform for purchasing digital and physical stamps, integrated end-to-end with Stripe for secure payments, including webhooks and dynamic pricing.
- Implemented Mistral AI for OCR-based stamp digitization, enabling users to download purchased stamps as transparent SVGs.
- Designed and managed the database schema in Supabase; exposed APIs via tRPC for type-safe, reliable data access.
- Delivered full cart, checkout, and order management flows covering both digital and physical product delivery.

Tech: Next.js · Supabase · Stripe · tRPC · TypeScript · Mistral AI

Frontend Developer – TRAKStation by SAFESens (*Contract*)

Remote | 2022–2023

- Redesigned the entire dashboard UI for a pH monitoring platform used by healthcare workers in IVF labs, transforming a cluttered legacy interface into a modern, intuitive experience.
- Built and refactored Titlebar, sidebar, drag-and-drop cards, and data pages using functional React with Hooks, Redux Toolkit, Material UI, and TypeScript.
- Made all components responsive across screen sizes and added gesture support.

Tech: React · Redux Toolkit · TypeScript · Material UI

Frontend Developer – Chat-UI by Infinite Limit Data Science (*Contract*)

Remote | 2022–2023

- Contributed features to a SvelteKit-based AI LLM chat application supporting models such as Mistral and Llama.
- Implemented JWT authentication middleware, dynamic prompt templates, and temperature controls for model tuning.
- Wrote end-to-end tests and conducted performance testing to ensure application reliability under load.

Tech: SvelteKit · TypeScript · MongoDB · JWT

Frontend Developer – Oktria Business Guidance System (*Contract*)

Remote | 2021–2022

- Migrated the entire frontend from Wix to a custom React/Svelte codebase, reducing page load time from 20 seconds to 2 seconds.
- Built complex form pages including drag-and-drop task lists, user profile assignments, charts, and multi-step form flows across 12+ pages.
- Wrote automated tests using HTTPS inspection, DRY loops, and custom Cypress commands.

Tech: React · Svelte · TypeScript · Cypress

Frontend Developer – MyPharm Pharmacy E-Commerce (*Contract*)

Remote | 2021

- Developed chart, table, and form components for a multi-page pharmacy management platform.
- Focused on intuitive UX design so end users could understand workflows without documentation.
- Handled complex multi-table calculations and data relationships across the application.

Tech: React · TypeScript · CSS

Additional

- **Communication:** Proactively collaborates with teams and clients; comfortable giving and receiving technical feedback.
- **Availability:** 40 hours/week, open to full-time or contract engagements.
- **Client Reviews:** Verified reviews available at [Upwork profile](#).
